

THE BEACON LEARNING COMMUNITY

'Extending Schools, Widening Learning'

VISION:

'To encourage and enable community wide learning for everyone by sharing resources, expertise and opportunity across all schools in the Beacon Learning Community'

We will achieve this through:

1. A clear, agreed and shared vision;
2. Pride, passion and creativity in all that we do;
3. A collaborative mindset resulting in trust and mutual respect across all schools;
4. Shared responsibility, support across the community with all 14 schools working as one team;
5. Quality services and community provision in all schools with pupils, parents, staff and the wider community aware of the opportunities available to them;
6. Knowing our strengths, sharing our skills and challenging each other;
7. Opportunities for staff to share ideas and expertise e.g. to work in other schools and gain wider experience;
8. Building capacity and making most efficient use of our collective resources e.g. joint posts, inter-school procedures and joint approaches;
9. Raising aspirations for pupils, staff and the community;
10. Being outward looking and connecting with the bigger picture and the global economy;
11. Being prepared to dream and explore new opportunities and ways of working;
12. Raising our profile and being recognised as an excellent learning community.
